CASE STATEMENT CLASSIFICATIONS

Age	Age Group
0	Non applicable
1 – 12	Child (1 to 12)
13 – 17	Teenager (13 to 17)
18 – 30	Young Adult (18 to 30)
31 – 50	Adult (31 to 50)
51 – 65	Middle Aged (51 to 65)
65+	Seniors (greater than 65)
(no match)	Unknown (ELSE)

Time (SAST)	Time Slot
00:00 – 05:59	Late Night
06:00 – 11:59	Morning
12:00 – 17:59	Afternoon
18:00 – 23:59	Evening
(no match)	Midnight (ELSE)

VIEWERSHIP BY PROVINCE

 **Gauteng**

3,786

Highest. ~16M population density drives viewership.

 **Northern Cape**

236

Lowest. Smallest province with ~1.38M people.

 **Unaccounted**

1,049

Null + 'None' province — data gap to address.

VIEWER DEMOGRAPHICS · GENDER & RACE

Gender Distribution

■ Male (82%) ■ Female (9%) ■ Other (7%) ■ Unknown (2%)

Race Distribution

Key Insight: Male viewers dominate at 82%, driven by sport-heavy content (SuperSport Live Events #1, ICC Cricket #2). Black viewers lead by race with 4,516 — aligning with SA's demographic majority. 235 viewers have no race data, flagged as a CRM data quality gap.

VIEWERSHIP BY AGE GROUP

🏆 Adults (31-50)

4,991

Core audience — home after work.

⚡ Young Adults (18-30)

3,933

High engagement, digitally active.

📉 Seniors (65+)

48

Lowest — eyesight & early bedtime.

📈 Trendline: viewership clearly declines with age — target acquisition efforts on Adults & Young Adults.

MONTHLY & DAILY VIEWERSHIP PATTERNS

Views per Month

Views by Time Slot

March Peak

4,816 views — ICC Cricket World Cup season drives massive sports viewership.

April Crash

Only 5 views! Spring Break, better weather & digital alternatives pulled viewers away.

Afternoon Gold

3,734 views — prime slot capturing students & post-work adults returning home.

KEY INSIGHTS · DIAGNOSTIC SYNTHESIS

Regional Dominance

Gauteng leads with 3,786 viewers (16M population). Northern Cape lowest at 236 (1.38M). Targeting should weight Gauteng for maximum reach.

Age-Viewership Decline

Clear inverse trend — Adults (4,991) and Young Adults (3,933) dominate while Seniors register only 48 views. Younger acquisition = higher ROI.

Monthly Volatility

March peaked at 4,816 — ICC Cricket surge. April crashed to just 5 views: Spring Break + digital migration. Content strategy must address seasonal gaps.

Sport Drives Viewing

Top 2 channels are sport properties (SuperSport + ICC Cricket = 3,103 views combined). 82% male viewership correlates with sport-heavy schedule.

Afternoon is Prime Time

Afternoon slot captures 3,734 views — students home and post-work adults. Schedule flagship shows 12:00–17:00 SAST for maximum reach.

Data Quality Gaps

1,049 province NULLs, 235 unknown race, and duplicate channel names (Sawsee/SawSee) reduce targeting accuracy. CRM hygiene is a priority.

STRATEGIC RECOMMENDATIONS

Initiative I: Stabilise Low-Consumption Periods

Event-ise Non-Sport

Schedule movie premieres & reality finales to replicate the "March effect" during April drop-offs.

Afternoon Retention

Deploy cliffhangers & back-to-back episodes to bridge the 15:00–18:00 peak into evening slots.

Senior-Friendly Slots

Introduce accessible programming before 20:00 to capture seniors before sleep constraints set in.

Initiative II: Expand the User Base

Digital Integration

Combat "April digital flight" with a companion app or social co-viewing feature for younger demographics.

Gauteng Deep-Dive

Double down on SA's densest market (16M) via hyper-local acquisition campaigns and sponsorships.

Weekend Teen Packages

Tailored weekend-only tiers aimed at Teenagers (181 views) who cannot watch during school week.
